

Hei!

Redmachine's training centre will be set up also next year! Redmachine runners have booked their stays and now it's your turn to make your move. If you're looking for a professionally organized orienteering camp this might be your thing! Anyone is welcome no matter your skills or level of commitment. Read below for more information :)

When and where?

3.2.-20.3.2019 Guardamar del Segura (Barbate)

How's the house?

Same house as in spring 2017. It is located close to two sand dune terrains that are accessible by foot 1,7 and 1,8km from the house.

House: <https://www.homeaway.fi/loma-asunto/p10121270>

What does it cost?

For Pyrintö members we offer a very generous price of **20 €/person/night**. This includes accommodation, trainings, and transport in Spain. It excludes food, competition entries and flights. We will be having a host or two present all the time who takes care of things like transporting people around by car, setting out controls, planning trainings, printing maps etc. We will also be having a masseur present for several weeks. Flights from Finland are still cheap. However, the prices for winter holiday weeks are rising fast.

Training centre welcomes also non-Pyrintö people.

How to arrive?

By plane to Alicante. Let us know the exact dates you are planning and we'll fix you a ride from/to the airport. The house is located 30min from the airport.

How to enter?

By contacting Severi Kymäläinen. Contact details at the end of this file.

What's on the competition calendar?

There are some races close to Guardamar and Alicante during the time the training centre is open.

16.2. Local competition, middle distance [1h30min by car, no info yet]

17.2. Local competition, mass start [1h45min by car, no info yet]

22.-24.2. Trofeo Costa Calida & COMOF 2019 (3xWRE) (sprint, long, middle)

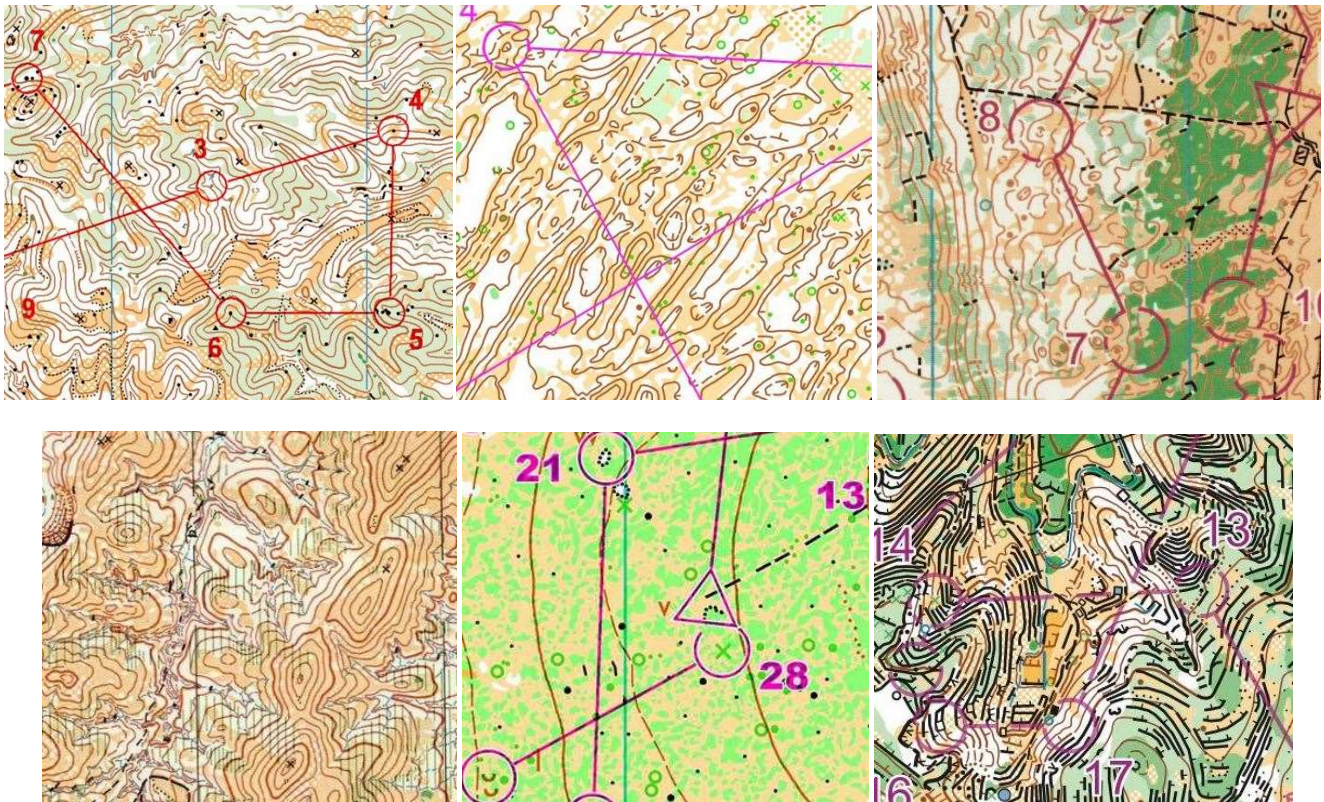

<https://www.costacalidaorientacion.net/> [1h20min by car]

3.3. Local competition [10min by car, no info yet]

Might be some small regional events will still pop up later on but the big thing is definitely the Costa Calida which will have hundreds of participants from around the world.

How are the terrains?

Alicante:

Why to join?

A complete training camp organized on elite standards. However, you can commit on any level you desire. You don't need to worry about anything. Learn from the best, see their training, see their routines, get a glimpse behind the scenes. The price is ridiculous, no chance to get a price anywhere near this level anywhere else. To have fun in great company!

Who can join?

Anyone! Redmachine doesn't mind whether you come to train seriously or to get the perfect tan. Note, though, that the focus in the training centre is in training and recovery, setup is very professional for orienteering athletes.
